

CONTENTS

Part 2. Topographic Anatomy	8
Cellular spaces	14
Neck triangles	16
Topographic anatomy of the sternocleidomastoid region	30
Vascular and nerve topography	33
Neck organs: larynx, trachea.....	36
Topography of the thyroid and parathyroid glands	46
CHEST	52
Blood supply to the chest walls	54
Topography of the mammary gland.....	56
Topography of the pleura. Pleural sinuses	63
Topography of the lungs: lobes, segments; gate and root of the lung....	67
The topography of the diaphragm.....	74
Topography of vagus and recurrent nerves	78
Topography of the anterior mediastinum	82
Topography of the heart	85
Topography of the pericardium.....	89
Topography of the posterior mediastinum	91
Topography of the esophagus	97
Topographic anatomy of the inner surface of the anterolateral abdominal wall.....	102
Topography of the inguinal triangle and inguinal canal	105
Topography of the peritoneum, its relation to the abdominal organ....	117
Topography of the lumbar region. Borders, external landmarks	122
Topography of retroperitoneal space.....	125
Topography of retroperitoneal organs: kidneys, adrenal glands, ureters	129
Topography of the abdominal aorta; its visceral and parietal branches: the inferior vena cava and its tributaries.....	139
Topography of the liver, gallbladder and hepatic-duodenal ligament..	146
Topography of the portal vein. Portocaval anastomoses.....	156
Topography of the stomach.....	159
Topography of the duodenum	167
Topography of the pancreas	172

Topography of the small and large intestines.....	175
Topographic and anatomical characteristics of the colon	182
Topography of the rectum	192
Pelvic topography: boundaries, external landmarks.	
Floors of the pelvis. Fascia and cellular spaces	198
Topography of the bladder and urethra	212
Topography of the uterus, vagina, appendages	216
Operative surgery	226
Cervical vagosympathetic blockade according to A.V. Vishnevsky	226
Tracheostomy and tracheotomy. Indication, technique of performance	228
Incisions for opening the superficial and deep phlegmon of the neck	234
Operations on the esophagus: esophagotomy, esophageal suture stitch	235
CHEST	239
Operations on the mammary gland in benign and malignant diseases Sectoral resection of the mammary gland.....	239
Anatomical substantiation of incisions with purulent-inflammatory diseases of the mammary gland.....	242
Puncture of the pleural cavity. Active and passive drainage.....	244
Types of thoracotomy. Surgery for penetrating chest wounds and valve pneumothorax	249
The concept of thoracoplasty, surgical treatment of acute and chronic pleural empyema	252
Puncture of the pericardium.....	254
Suturing a heart wound. Indication, technology	259
THE ABDOMINAL CAVITY	262
Anatomical-physiological substantiation of accesses in abdominal operations.	262
Operative treatment of inguinal hernias.....	264
Surgical treatment of umbilical and femoral hernias	
Treatment of femoral hernia in men and women	272
Injured hernia. Types of infringements.	
Features of surgical treatment	280
Revision of the abdominal cavity with closed abdominal injury.....	283

Theoretical bases and methods of application of intestinal sutures	286
Resection of the small intestine.	
Indication, technique of performance	289
Anastomosis end to the end	291
Anastomosis side to side	292
The fecal fistula, the unnatural anus	296
Suturing a perforated ulcer of the stomach and duodenum	301
Principles of stomach resection according to Billroth-1, Billrot-2 and in the modification of Hofmeister-Finsterer	307
The concept of vagotomy, draining operations on the stomach	316
Seam of the liver. Cholecystectomy. Cholecystectomy	320
CHOLECYSTOSTOMY	321
CHOLECYSTECTOMY	324
LUMBAR REGION AND PELVIS	328
Paranephral novocaine blockade	328
Kidney wound seam, kidney resection	329
Nephrolithotomy	331
Subcapsular nephrectomy	333
Nephrourethrectomy	335
Puncture of rectum-uterine and rectal-vesicular cavities	336
Operations on the bladder: puncture of the bladder, cystotomy.	
Cystostomy, suturing the wound of the bladder	337
Cystotomy	338
Case studies	342
Standards of answers	351
Literature	353
